EXPERIENCE

EPAM Systems   Berlin, Germany
Lead Software Engineer   *Jun 2018 - Present*

- Architected and engineered custom innovative enterprise software solutions for Fortune 500 clients tailored to diverse customer needs, driving a 25% increase in user retention rates and enhancing overall customer satisfaction scores by 230 points, boosting operational efficiency by around 30% and increasing revenue by an average of $500K annually through streamlined processes and advanced automation technologies.

Virgin Red   Remote, UK
Front End Engineer   *Apr 2023 - Mar 2024*

- Successfully integrated several external marketing tools from third-party providers, enhancing the functionality of the mobile application.
- Facilitated the seamless deployment of the application to over 1M users on both the App Store and Google Play Store.
- **Technologies**: React 18, React Native, TypeScript, AWS

adidas   Herzogenaurach, Germany
Lead Software Engineer   *Apr 2021 - Mar 2023*

- Planned, implemented, and maintained a complex front-end architecture built on Microfrontends using Webpack Module Federation. This innovative approach enabled the seamless integration of virtually any application, whether existing or developed from scratch, as part of a large-scale 'mega-uber-app' with a unified UI/UX.
- Effectively scaled a software engineering team from a single member to a cohesive unit of 5 high-performing engineers.
- **Technologies**: Microfrontends, React 17, RxJS, TypeScript, Webpack 5, Module Federation, AWS

Clarivate Analytics   Remote, USA
Lead Software Engineer   *Jun 2018 - Mar 2021*

- Participated in Solution Architecture planning and implementation from 0 to 1 and contributed to company architecture guidelines.
- Assembled and managed a high-performing team of 8 Frontend Software Engineers.
- Delivered more than 30 features for the application, including interactive charts, export capabilities to PNG/PDF/XLS, role-based authorization, and more.
- **Technologies**: Angular 10, TypeScript, RxJS, D3, Spring MVC, PostgreSQL, AWS

Netsertive   Remote, USA
Senior Software Engineer   *Oct 2016 - May 2018*

- **Technologies**: React 15, Redux, Flow, PHP 5, CodeIgniter, Liquibase, MySQL

Xyleme   Remote, USA
Senior Software Engineer   *Apr 2015 - Sep 2016*

- **Technologies**: JavaScript, ECMAScript 6, Groovy, Grails, Gradle, MongoDB

Knowit AB / Datium Oy   Helsinki, Finland
Senior Software Engineer   *Sep 2012 - Mar 2015*

- **Technologies**: .NET, SharePoint, JavaScript, HTML5/CSS3, SQL

Softline   Moscow, Russian Federation
Senior Software Engineer   *Jan 2008 - Aug 2012*

- **Technologies**: .NET, SharePoint, JavaScript, HTML5/CSS3, SQL

Ramedia   Kostroma, Russian Federation
Software Engineer   *Aug 2005 - Dec 2007*

- **Technologies**: .NET, JavaScript, XML/XSLT, HTML/CSS, SQL

Kostroma State Technological University (KSTU)   Kostroma, Russian Federation
Software Engineer   *Sep 2004 - Aug 2005*

- **Technologies**: PHP 4, JavaScript, HTML/CSS, MySQL

Education

Kostroma State Technological University (KSTU) Kostroma, Russian Federation
Master of Science in Information Systems and Technologies; Diploma cum laude

Technical Skills

Languages: TypeScript, JavaScript, Dart, C#, SQL, HTML/CSS, PHP, Python, Swift, Kotlin
Frameworks: React, React Native, Flutter, Ionic, Capacitor, Angular, Vue, Flutter, Node.js
Developer Tools: Git, Docker, AWS, Azure, Kubernetes, Google Cloud Platform, VS Code
Libraries: Webpack Module Federation, RxJS, D3
